

DO IT ONCE
DO IT RIGHT

Reduced beer loss and increased tap quality... music to any bar owner's ears! ColdArc's 'Cold Tap' helps to simplify your day-to-day tasks through one seamless service. Our expert refrigeration technicians will help you get the best out of your beer taps - saving you time, money and a whole lot of beer!

Serving superior beer is essential when it comes to customer satisfaction and repeat business, and our Cold Tap service allows you to do just that. Ever-changing staff rosters and reliance on key individuals shouldn't limit your ability to keep your taps flowing. Let us take the hassle out of managing your beer taps so you can get on with running your business.

BEER LINE CLEANS

Keep your beer lines flowing and customers happy.

INSPECTIONS & TESTING

Glycol inspections and leak testing to minimise breakdowns.

24/7 BREAKDOWN REPAIRS

Repairs 24 hours, 7 days a week and breakdown priority response ranking.
