COLD ROOMS

Ever stopped to consider how hard a typical cold room has to work? Keeping precious stock at the perfect temperature amidst the scorching Queensland heat is not always easy, especially when doors are constantly being opened and stock is forever being loaded and unloaded.

Backed by 20 years of industry experience, ColdArc's custom built and DIY cold rooms are guaranteed to meet your every need. With comprehensive warranty and 24 hour repairs and maintenance, our quality cold rooms will keep your business running efficiently without the added stress.

A cold room is one of your business's biggest assets and not all are designed or built correctly. Don't risk it, partner with ColdArc and experience the difference!
